

Celebration of Earth Day 2026: Awareness Programme on "Planet vs Plastics"

The Green Campus Cell of Nirmal Haloi College, Patacharkuchi, successfully conducted an awareness programme focused on "Planet vs Plastics" to commemorate Earth Day 2026. The event commenced with an opening address by Suman Barman, Coordinator of the Green Campus Cell, who emphasized the importance of campus sustainability and environmental responsibility.

Vice Principal Kishore Kumar Sarma as a resource person delivered the keynote address, providing a comprehensive overview of the "3R" framework—Reduce, Reuse, and Recycle. His lecture offered practical strategies for mitigating plastic waste within the institutional community. The programme concluded with closing remarks from the Principal Dr. Kaushik kumar Deka, reinforcing the college's ongoing commitment to environmental stewardship.

Following the successful conclusion of the awareness programme, students participated in a tree plantation drive. This hands-on initiative served as a practical extension of the programme's objectives, fostering environmental stewardship and a commitment to sustainability within the community.

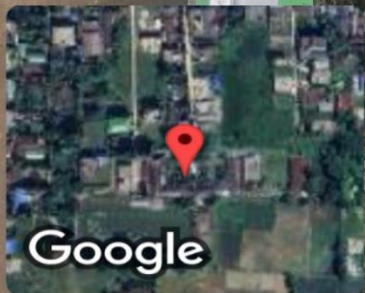

Resource person of the programme.

Co-ordinator of the green campus cell.
