

Report Of the Publication Cell

The Publication Cell of Nirmal Haloi College has been actively engaged in promoting academic writing, research dissemination, and scholarly publication among faculty members and students. During the last few years, the Cell has undertaken several initiatives to foster a vibrant research culture within the institution.

One of the major activities of the Publication Cell has been the publication of institutional newsletters. Newsletters were successfully published during the academic years 2023–24, 2025, and 2026, covering a wide range of academic, literary, cultural, extension, and co-curricular activities conducted by the college. These newsletters served as important platforms for documenting institutional achievements, departmental activities, students' accomplishments, faculty contributions, and significant events organized by the college.

The Publication Cell has also facilitated the publication of ISBN books, thereby contributing to the enhancement of academic output and research visibility of the institution.

The following ISBN books have been published under the aegis of the Publication Cell:

1. Drizzle (ISBN Book, 2020)

Editor: Dr. Nabanita Kalita

2. Breaking Boundaries: Gender and Feminism in the Global Context (ISBN Book, 2025)

Editors: Banasri Kumar and Upakul Patowary

These publications reflect the college's commitment to academic excellence, interdisciplinary research, and the promotion of scholarly discourse.
