Report on Observation of World Water Day Date:

22-03-2024

Venue: Digital Room, Nirmal Haloi College

The World Water Day Lecture Session took place on March 22, 2024, to commemorate World Water Day organized by NSS Unit in collaboration with Green Club, Nirmal Haloi College. The session aimed to raise awareness about the global water crisis with the theme "Water for Peace and Prosperity"

Key Speakers and Topics

1. Jiten Kumar Bhagawati - Global Water Crisis and its Implications

Jiten Kumar Bhagawati, Co-ordinator, IQAC, Nirmal Haloi College, delivered the opening address. He highlighted the magnitude of the global water crisis and its severe consequences on human health, ecosystems, and socio-economic development.

2. Dr. Tapan Kalita - Sustainable Water Management

Dr. Tapan Kalita, Head, Department of History, an expert in water resources management, discussed sustainable water management practices. He emphasized the importance of efficient water use, preservation of freshwater ecosystems, and implementing integrated water resource management approaches.

Panel Discussion

The lecture session concluded with a panel discussion, where the speakers engaged in a dynamic conversation with the audience. Key topics discussed during the panel included

a. Community Participation and Awareness:

The panel discussed the significance of community participation in water conservation efforts. They emphasized the need for awareness campaigns, educational programs and community-led initiatives to foster behavioural change and promote responsible water use.

b. International Cooperation:

The speakers highlighted the importance of international cooperation in addressing trans boundary water issues, sharing best practices, and supporting countries facing severe water scarcity. They emphasized the need for global partnerships to achieve the United Nations Sustainable Development Goal 6, which aims to ensure the availability and sustainable management of water and sanitation for all.

Conclusion

The World Water Day Lecture Session provided a platform for experts, activists, and participants to come together and discuss the pressing challenges associated with the global water crisis. It underscored the urgent need for sustainable water management practices, community engagement, and international collaboration to ensure universal access to clean water and safeguard this vital resource for future generations. The session served as a catalyst for raising awareness and inspiring action towards a water-secure world.
